RECEIVER'S SIXTH MOTION FOR APPROVAL OF THE SALE OF CERTAIN REAL ESTATE

Kevin B. Duff, as receiver ("Receiver") for the Estate of Defendants EquityBuild, Inc. ("EquityBuild"), EquityBuild Finance, LLC ("EquityBuild Finance" or "EBF"), their respective affiliate entities, and the affiliate entities of Defendants Jerome Cohen and Shaun Cohen (collectively, the "Receivership Defendants"), and pursuant to the powers vested in him by the Order Appointing Receiver entered on August 17, 2018, respectfully moves for judicial approval of the sale of certain real estate constituting Receivership Assets, and, in support of the motion, states as follows:

Preliminary Statement

In this motion, the Receiver seeks judicial approval to consummate the sale of the single-family home in Naples, Florida, originally titled in the name of Jerome Cohen and now identified by this Court as a Receivership Asset. (Docket No. 603, 12/13/2019 Order.) The Receiver intends to sell this property to Craig L. Stevens and is required to close by April 10, 2020, pursuant to the purchase and sale agreement entered into on February 11, 2020.

Factual Background

This Court Authorized The Receiver To Sell Certain Assets Owned By The Receivership Defendants And Subsumed Within The Receivership Estate.

- 1. The United States Securities and Exchange Commission filed this case against EquityBuild, EquityBuild Finance, Jerome Cohen, and Shaun Cohen alleging violations of Section 10(b) of the Securities Exchange Act of 1934 (the "Exchange Act"), 15 U.S.C. § 78j(b), and Rule 10b-5 promulgated thereunder, 17 C.F.R. 240.10b-5, Section 20(a) of the Exchange Act, 15 U.S.C. §78t(a), Sections 5(a) and 5(c) of the Securities Act of 1933 (the "Securities Act"), 15 U.S.C. §77e(a) and (c), and Section 17(a) of the Securities Act, 15 U.S.C. §877q(a)q.
- 2. In the Complaint, the SEC alleged that the defendants operated a Ponzi-scheme that raised at least \$135 million from more than 900 investors by, among other things, making untrue statements of material fact in connection with the sale of promissory notes allegedly secured by residential real estate primarily located on the south side of Chicago.
- 3. On August 28, 2018, the Court entered a judgment against defendants Jerome Cohen and Shaun Cohen which, among other things, enjoined future violations of federal securities laws. (Docket No. 40)
- 4. In its Order Appointing Receiver, the Court assumed exclusive jurisdiction over, and possession of, the assets of the Receivership Defendants. (Docket No. 16, \P 1)
- 5. In the Order Appointing Receiver, the Court also conferred upon the Receiver (1) "all powers, authorities, rights and privileges" theretofore possessed by the principals of the Receivership Defendants under applicable state and federal law, as well as by the governing operating and shareholders' agreements and (2) all powers and authority of a receiver at equity, as well as all powers conferred upon a receiver under 28 U.S.C. §§ 754, 959, and 1692, and Federal Rule of Civil Procedure 66. (Docket No. 16, ¶ 4)

- 6. The Court also authorized the Receiver to "take all necessary and reasonable actions to cause the sale" of "all real property in the Receivership Estate, either at public or private sale, on terms and in the manner the Receiver deems most beneficial to the Receivership Estate, and with due regard to the realization of the true and proper value of such real property." (Docket No. 16, ¶ 38.)
- 7. On March 7, 2019, the Receiver filed a motion to amend the Order Appointing Receiver to clarify that the home acquired by and resided in by Jerome and Patricia Cohen at 1050 8th Avenue N, Naples, Florida (the "Naples Residence"), is a Receivership Asset. (Docket No. 265) Cohen challenged the Receiver's position that the Naples Residence is a Receivership Asset (Docket Nos. 301, 356), and, after the motion was briefed, Magistrate Judge Kim held an evidentiary hearing on July 10, 2019. Jerome Cohen did not attend. Cohen subsequently filed a memorandum explaining his absence, and Judge Kim issued an order setting a further hearing on August 14, 2019, which was ultimately cancelled as a result of Cohen's failure to appear. (Docket Nos. 457 & 475) On August 27, 2019, Magistrate Judge Kim issued a report and recommendation granting the Receiver's motion and finding that the Naples Property and a bank account in the name of Jerome Cohen and Patricia Cohen are Receivership Assets. (Docket No. 492) Judge Kim also ruled, inter alia, that "Patricia Cohen cannot argue that a 'lack of knowledge or involvement' in Cohen's Ponzi scheme 'exonerates' her and renders her eligible for the homestead exemption. In re Fin. Federated, 347 F.3d at 890 ('A lack of knowledge on the part of the person asserting the homestead exception does not change [the court's] analysis, as it is the fraudulent nature of the funds which is of utmost importance.'). Thus, the homestead exemption does not apply here. Kirkland, No. 6:06-CV-183, 2008 WL 1787234, at *1." (Docket No. 492, 8/17/2019 Order, at 12-14.) On December 13, 2019, Judge Lee adopted Magistrate Judge Kim's report and

recommendation in full and granted the Receiver's motion to amend the Order Appointing Receiver in order to designate the Naples Residence as a Receivership Asset. (Docket No. 603, 12/13/2019 Order, at 1)

Pursuant To A Private Sale Process Approved by The Court, The Receiver Accepted The Sales Contract For The Conveyance Of Certain Property.

- 8. On November 25, 2019, the Receiver moved to sell the Naples Residence (Docket No. 589), and Jerome Cohen subsequently objected (Docket No. 593). On January 6, 2020, the Court overruled Cohen's objection and granted the motion, appointing three appraisers, and allowing the Receiver to sell the property through a private sale. (Docket No. 612). The Receiver then obtained three appraisals from the approved appraisers, who appraised the property at \$950,000, \$960,000, and \$970,000, respectively. (See **EXHIBITS A-C**.) The Receiver then listed the property for sale at \$999,000, consistent with the information received from the appraisers and in consultation with his local real estate broker.
- 9. Thereafter, the Receiver entered into a Sales Contract dated February 12, 2020, with Craig L. Stevens at the list price of \$999,000. (**EXHIBIT D**.)
- 10. Following a due diligence review by the purchaser, the Receiver entered into an Amended Sales Contract with the buyer on March 2, 2020 (**EXHIBIT E**) reflecting a \$49,000 decrease to the purchase price as a result of certain defects identified during a home inspection. A sale of the Naples Residence at this price complies with 28 U.S.C. § 2001, which provides that "[n]o private sale shall be confirmed at a price less than two-thirds of the appraised value." Here, the Receiver seeks approval to sell the property at 100% of its lowest appraised value.
- 11. The Naples Residence is encumbered by that certain mortgage dated August 26, 2015, from Jerome H. Cohen and Patricia Schroyer, husband and wife, to Mortgage Electric Registration System, Inc., as nominee for Flagstar Bank, FSB (the "Lender"), recorded

September 2, 2015, to secure a promissory note in the originally stated principal amount of \$576,000.00 (**EXHIBIT F**.)

The Receiver Intends To Use Sales Proceeds To Retire The Mortgage And Fund All Necessary Closing Costs.

- 12. The Receiver will request a final payoff letter from the Lender for closing and will pay the outstanding principal balance of the mortgage from the closing proceeds. Certain closing costs and expenses will also be paid from the sales proceeds, including, but not limited to (1) any fees associated with the furnishing of owner's title insurance policies, (2) the cost of state, local, and municipal transfer taxes, (3) the closing (or escrow) fee assessed by the title company, and (4) a series of ancillary and customary charges relating to utilities, wire transfer fees (associated with the transfer of the sales proceeds to the receivership bank account), expediting fees, and state regulatory fees.
- 13. The Receiver will also be required to pay sales a brokerage commission to Engel & Voelkers Naples Bonita Estero ("Broker"). Pursuant to that certain Listing Agreement entered into between the Broker and the Receiver, the Broker is entitled to a commission equaling 4.0% of the purchase price in any transaction where the prospective buyer was not procured through the efforts of a cooperating broker.
- 14. The property encompassed within this motion does not require the payment of a cooperating brokerage commission, and thus the Receiver will pay a \$38,000 brokerage commission at closing.
- 15. Finally, the Receiver requests that the law firm of Roetzel & Andress, which has served, and continues to serve as local counsel in connection with the sale of the Naples Residence, be paid attorneys' fees and reimbursed for expenses in the amount not to exceed \$10,000 at closing. The firm has agreed to cap its fees and expenses at this amount. (Copies of the relevant invoices

through February 2020 are attached hereto as **EXHIBIT G**. Roetzel & Andress estimates that an additional \$2,500 in fees will be incurred through closing for the following work: (i) preparing, executing, and delivering the seller's closing documents; (ii) preparing and approving of the closing statement and numerous costs listed thereon; (iii) complying with buyer's requested title insurance documents which may be different from standard seller's documents; (iv) working with the closing agent for the days before and after closing; and (v) approving disbursement of closing funds.).

The Receiver Will Provide Fair, Adequate, And Sufficient Notice To All Interested Parties.

- 16. The Receiver intends to serve a copy of this motion (and the accompanying notice of motion) upon the Lender and all other interested parties of which he is currently aware by electronic mail (to the extent he possesses an e-mail address), or by regular mail if he possesses a mailing address, but no e-mail address.
- 17. A copy of this motion will also be posted on the Receiver's webpage at http://rdaplaw.net/receivership-for-equitybuild. The previously-filed motion to approve the sales process for this property (Docket No. 589) and this Court's Order granting the same (Docket No. 612) were also posted to the Receiver's webpage.

Conclusion

This Court Should Enter An Order Approving The Sale Of The Naples Residence.

18. In the Order Appointing Receiver, this Court invested the Receiver with authority to sell, and transfer clear title to, all real property in the Receivership Estate. (Docket No. 16, ¶ 39) ("Upon further Order of this Court, pursuant to such procedures as may be required by this Court and additional authority such as 28 U.S.C. §§ 2001 and 2004, the Receiver will be authorized to sell, and transfer clear title to, all real property in the Receivership Estate.")

19. Accordingly, the Receiver respectfully requests that this Court enter the proposed order attached as **Exhibit H** approving the sale of the Naples Residence pursuant to the Sales Contract attached as **Exhibits D & E.** The Receiver also requests the Court's approval to deposit the net proceeds from the sale of the property into the Receiver's Account and to use those funds for the payment of the administrative and operating expenses of the Receivership Estate.

Respectfully submitted,

KEVIN B. DUFF, RECEIVER

Four closed sales and one active listing were compared to the subject. All comps were in the subject's Lake Park development.

GLA adjustments were made based on an estimated contributory value of \$150 per square foot. Full baths were valued at \$10,000 and half baths at \$5,000. Garage spaces were each given a value of \$10,000. Pools were valued at \$25,000 and spas at \$5,000.

The subject was an eight-year-old dwelling. It was in average condition. The second floor had a bedroom that was created from a recently converted porch. It had a concrete subfloor that was painted. Other areas of the second story had worn carpet that should be updated. Most comps had superior physical condition of materials than the subject and required condition adjustments.

Comp 1 was considered the best comp, because of its GLA. Comp 1 was the largest dwelling to sell on the SWFLAMLS in the subject's Lake Park development within one year of the effective date. It was the only comp to have a GLA that was larger than the subject's size. Comp 1 had a 5% view adjustment applied for having a superior lake view. The comp had a 5% condition adjustment for its superior physical condition of materials than the subject. The adjustment was applied, because although the comp had an older actual age, it had a better kept flooring and kitchen.

Comp 2 was a one-story custom dwelling. It was included in this report, because it was one of the larger GLA closed sales in the subject's development over the past year. The comp had an actual age that was five years younger than the subject. A condition adjustment of 10% was applied to the comp. This adjustment was applied, because materials inside of the dwelling appeared to have gone through much less physical deterioration than the subject's interior materials.

Comp 3 was originally built in 1951, however, it was re-built in 2013. The comp was marketed as having a building year of 2013 on the SWFLAMLS, thus its actual age was carried as seven years old in this appraisal. The comp had a 5% condition adjustment applied for its superior physical condition of materials. The comp had interior materials that was of similar age as the subject, however, the adjustment was applied, because the flooring was in superior condition than the subject.

Comp 4 was a provided closed sale that closed greater than one year from the effective date. It was provided, because it was a closed sale inside of the subject's development that did not require a condition adjustment. The comp had a quality adjustment applied based on an estimated \$25 per square foot for having inferior building materials and/or upgrades compared to the subject. The comp had inferior carpet flooring in many of the rooms. Its kitchen had inferior countertops. The patio flooring was an inferior paver material. The pool had basic finishes and did not have a sundeck.

Comp 5 was a provided listing. It had a condition adjustment of 5% for having superior physical condition of materials than the subject.

The comps chosen were considered the best available for analysis. After the necessary adjustments, the comps represent a range indicative of the subject's final opinion of value.

Adjustments, (including view) were based on the estimated contributory market value difference derived from paired sales analyses of comps in the market area both historic and current.

The sales utilized within the sales comparison approach as comparables are all closed sales within the subject's market area. They are considered suitable substitutes for the subject due to their proximity to the subject, quality of construction, age, appeal, and overall desirability.

Comparable selection was determined by locating the most similar, most recent sales of similar properties within the subjects immediate market area.

I hereby certify that this appraiser has not performed any services regarding the subject property within the 3 year time period immediately preceding acceptance of this assignment, as an appraiser or in any other capacity.

No individual has influenced or attempted to influence the development, reporting, result, or review of this assignment through coercion, extortion, collusion, compensation, instruction, inducement, intimidation, bribery, or in any other manner.

A reasonable exposure time for the subject property is 180-365 days.

The subject's water and electric were on and working at the time of the appraisal inspection.

Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C/

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

CA

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

Quality Ratings and Definitions (continued)

03

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Ω4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

O!

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and ungrades.

06

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of) square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:

3.2 indicates three full baths and two half baths.

Highest and Best Use:

Real Estate is valued in terms of its highest and best use. Highest and best use is that which is the most profitable likely use of a property.

It may also be defined as that available use and program of future utilization which produces the highest present land value. The Dictionary of real Estate Appraisal, Third Edition, page 152, defines highest and best use as:

Highest and Best Use: The reasonably probable and legal use of vacant land or an improved property, which is physically possible, appropriately supported, financially feasible, and results in the highest value.

The four criteria the highest and best use must meet are legal permissibility, physical possibility, financial feasibility, and maximum profitability.

Highest and Best Use of Land or a Site as Though Vacant: Among all reasonable, alternative uses, the use that yields the highest present land value, after payments are made for labor, capital, and coordination. The use of a property based on the assumption that the parcel of land is vacant or can be made vacant by demolishing any improvements.

Highest and Best Use of Property as Improved: The use that should be made of a property as it exists. An existing property should be renovated or retained as is so long as it continues to contribute to the total market value of the property, or until the return from a new improvement would more than offset the cost of demolishing the existing building and constructing a new one.

An analysis of the highest and best use of a property is the most important aspect of the appraisal process because it is in terms of highest and best use that market value is estimated. This study and analysis of highest and best use is based on available data regarding those uses considered legal, possible, or most probable alternative uses, appropriate use, and the maximum feasible uses for the subject site. The highest and best use analysis is intended to reflect the highest and best use of the site as though vacant and a separate analysis of the property as improved.

Highest & Best Use as Vacant: Considering the physically possible, legally possible and financial feasibility tests of highest and best use, it is the appraiser's opinion that the highest and best use of the subject's site is for development of a single family residence.

Highest & Best Use as Improved: We have analyzed the overall neighborhood to determine how the subject improvements compare to the others in quality, size and overall appeal. The subject improvements are considered to be of similar quality and features for homes in the market area. It is therefore, the appraiser's opinion the subject improvements are well received and represent the highest and best use as improved.

The relevant legal, physical, and economic factors were analyzed to the extent necessary and resulted in a conclusion that the current use of the subject property is the highest and best use.

STATEMENT OF ASSUMPTIONS & LIMITING CONDITIONS

- The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis
- of it being under responsible ownership.
- The appraiser may have provided a sketch in the appraisal report to show approximate dimensions of the improvements, and any such sketch
- is included only to assist the reader of the report in visualizing the property and understanding the appraiser's determination of its size. Unless otherwise indicated, a Land Survey was not performed.
- If so indicated, the appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or
- data sources) and has noted in the appraisal report whether the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand.
- If the cost approach is included in this appraisal, the appraiser has estimated the value of the land in the cost approach at its highest and best
- use, and the improvements at their contributory value. These separate valuations of the land and improvements must not be used in conjunction
- with any other appraisal and are invalid if they are so used. Unless otherwise specifically indicated, the cost approach value is not an insurance
- value, and should not be used as such.
- The appraiser has noted in the appraisal report any adverse conditions (including, but not limited to, needed repairs, depreciation, the presence
- of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property, or that he or she became aware of during the
- normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any

hidden or unapparent conditions of the property, or adverse environmental conditions (including, but not limited to, the presence of hazardous

wastes, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and

makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any

such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the

appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered as an environmental assessment

the property.

DEFINITION OF MARKET VALUE *:

Market value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

- 1. Buyer and seller are typically motivated;
- 2. Both parties are well informed or well advised and acting in what they consider their own best interests;
- 3. A reasonable time is allowed for exposure in the open market;
- 4. Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
- 5. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.
- * This definition is from regulations published by federal regulatory agencies pursuant to Title XI of the Financial Institutions
 Reform, Recovery, and Enforcement Act (FIRREA) of 1989 between July 5, 1990, and August 24, 1990, by the Federal Reserve System
 (FRS), National Credit Union Administration (NCUA), Federal Deposit Insurance Corporation (FDIC), the Office of Thrift Supervision (OTS),
 and the Office of Comptroller of the Currency (OCC). This definition is also referenced in regulations jointly published by the OCC, OTS,
 FRS, and FDIC on June 7, 1994, and in the Interagency Appraisal and Evaluation Guidelines, dated October 27, 1994.

Joseph Acquafresca, State-certified residential real estate appraiser RD8294, assisted in the research and development of the appraisal. The assistants' duties included:

- Filling out the sections on General Purpose Residential Form Page 1
- Assisting in developing the Sales Comparison and Cost Approach's to value
- Writing the Summary of Sales Comparison Approach
- Assisting in reconciling the final opinion of value
- Inserting maps into the report
- Drawing sketch based on signing appraiser's field sketch and notes
- Inserting photographs into the report that were taken by the signing appraiser during inspection of the subject property

The assistant gathered information about the subject by reviewing photographs and notes provided from the signing appraiser's inspection and the subject's county assessor and Realist Tax pages. Assistant was responsible for filling out the Sales Comparison Approach Grid and assisting in making adjustments as warranted. Verification of sales was completed by viewing the county assessor website. Assistant researched vacant land sales on the SWFLAMLS in order to find an opinion of site value in the cost approach.

The signing appraiser conducted the interior and exterior inspection and reviewed work completed by the assistant. The signing appraiser researched the SWFLAMLS for comparable properties and communicated to the assistant which comps to put into the report. The signing appraiser made the final decision regarding the final opinion of value for the developed approaches and the report.

Adjustments (with the exception of the list to sale price ratio) Summary of Sales Comparison Approach have been made to the listing. The adjustments are derived from market research and are supported by direct paired sales analysis. The adjustments are only estimations based upon sales used in this report. Current list to sale price ratio is 3% and is derived from market data analyses. SALES There was a dated sale of a similar home (in appearance, quality, etc) which sold in March of 2018 for \$680,000. It was smaller, but similar in style (2 story.) Since the sale of this home, the area has seen a rise in sale prices due to its positive location to the beach and downtown area. Sales of homes on the west side of US41 demand a much higher price and have forced those who do not want to pay those prices to build and/or buy homes similar in quality just east of US41. This is a trend which has taken place especially south of the Coastland Center Mall due to its desirable location.

Current trend is seeing many older homes being razed and replaced with new construction.

• GP Residential: Improvements - Additional Features

The subject is a newer (for the area) two-story single family home located in Lake Park. While the quality of construction is good, the subject is in need of some minor upkeep/updates. Features include, but are not limited to, tile flooirng, worn carpeting, wood flooring, granite countertops, storm rated windows, concrete siding, in-house sauna, built-ins, and ceiling fans. The balcony is enclosed (45sf) however is not considered in GLA. This does not affect marketability. There are no appliances, and two rooms on the second floor lack proper floor coverings. Additionally, some millwork is need of minor repair as well as the interior painting requires a fresh coat. It should be noted that the appraiser conducted a visual inspection of only the readily accessible areas of the property, viewing only those components of the property which were clearly visible. No tests were made of the mechanical, plumbing and electrical systems. Such tests are not within the standard guidelines of FNMA or FHLMC. Comments on the condition of the foundation, roof, exterior, interior, floors, mechanical, plumbing, electrical, insulation and all other matters relating to the construction of the subject property are based on a casual observation only, which may have been limited by the placement of personal property, furnishings, etc. so as to preclude observation of the items blocked by same. There was no observation of the attic (scuttle), crawl space or components that are hidden within the walls other areas that would not be visible by a typical visitor to the home. The appraiser is not a home inspector and is not qualified to determine hidden defects or environmental conditions. It is recommended that a professional home inspector be utilized to determine any current or potential hidden defects including but not limited to structural, physical, environmental, electrical, plumbing, mechanical or other potential defects.

• GP Residential: Sales Comparison Analysis - Summary of Sales Comparison Approach

All sales and the subject are similar homes all located in the same market area. Adjustments (based upon paired sales analyses, appraiser's experience, realtor input, and both historical and internal pairings) were made to reflect differences in quality/quantity of construction upgrades/updates, living area square footage (>100sf), number of bathrooms, parking facilities, view amenity, age of the improvements, lack of fence/gate, condition, and for pool amenities. The conditions adjustments reflect the subject's lesser condition (lack of some flooring, lack of appliances, general upkeep) Conditions as noted represent conditions at time of sale of the comparables as derived through information given by respective listing agents, local MLS service, office records, limited external inspection and public records. Adjustments were made accordingly based upon apparent marketplace reaction to varying degrees to the items.

Square footage adjustments are estimated using a market extracted building residual.

Other adjustments as applied are estimated through market data analysis and/or the cost less depreciation from all forms method (when a lack of market data existed). Other adjustments as applied are estimated through market data analysis and/or the cost less depreciation from all forms method (when a lack of market data existed). The adjustments reflect the market's apparent reaction to amenities or items differing with the subject property. Consideration given to each of the above sales in the final reconciliation of the Sales Comparison Approach.

Comments on Predominant Value

It is not unusual for updated single family homes to exceed the predominant value in the subject's market area; marketability is not affected. The subject and all comparables are not considered over-improvements. The market area includes a wide variety of products and the predominant value indicated in this report has taken all improvements into consideration.

Reasonable Exposure Time

Exposure time is always presumed to precede the effective date of the appraisal. It is the estimated length of time the property would have been offered on the market, prior to the hypothetical sale, at the appraised value, on the effective date of the appraisal. It is a retrospective estimate based on an analysis of past events assuming a competitive and open market. This includes not only adequate, sufficient and reasonable time, but adequate, sufficient and reasonable effort. It is often expressed as a range and is based on the following:

- 1. Statistical information about days on the market, most commonly obtained from the local Multiple Listing Service.
- 2. Information gathered through sales verification.
- 3. Interviews with market participants.

Under current market conditions, the reasonable exposure time for the subject property is approximately less than three months. This is based on the analyses of current market trends in the general area and takes into account the size, condition and price range of the subject property and surrounding area. It is also noted in the 1004mc form. It presupposes that the listed price would be at or near the appraised value. It also assumes aggressive professional marketing by reputable local real estate offices.

Summary of Sales Comparison Approach

The sales were compared to subject improved tract and adjustments were made for differences. An adjustment grid is provided to assist the reader in understanding the reasoning behind adjustment applied. Items superior to the subject were adjusted downwards and items inferior to the subject were adjusted upwards based upon the comparative cost analysis methods, paired sales analysis, or by linear regression. The appropriate supporting documents are referenced or held in our files.

Reconciliation

Reconciliation is the part of the valuation process in which the appraiser attempts to resolve differences among the value indicators derived from the application of the approaches. The conclusion drawn in the reconciliation is based on the appropriateness, the accuracy, and the quantity of the evidence in the entire appraisal. In the final analysis, we based our value on the sales approach as the most appropriate method.

Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C/

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

CA

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of) square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:

3.2 indicates three full baths and two half baths.

» HIGHEST AND BEST USE ANALYSIS:

The four tests of highest and best use are: (1) legally permissible (2) physically possible (3) financially feasible and (4) most profitable. The first two tests are interchangeable in order and, in many circumstances, the last two are combined. Steps Three and Four (financially feasible/most profitable) cannot be determined until the first two steps are analyzed.

Legally Permissible: Current zoning is R1-7.5/Single Family. It can be assumed that the subject has been legally permitted, so it can also be assumed that it met the zoning requirements at the time of permitting.

Physically Possible: The subject appears to meet setbacks typical for other newer homes in the neighborhood and the utilization of the site would be considered typical for similar sites in the subject neighborhood, therefore the test of physically possible has been met.

Financially Feasible: The subject improvements represent a typical good quality home for the subject neighborhood, and would be considered to fall within the overall range of quality and finishes typical in the competing homes in the subject neighborhood as well as similar neighborhoods nearby. This residence does not appear to represent either an under-improvement, nor an over-improvement for the neighborhood and therefore would be considered financially feasible.

Most Profitable: As discussed above, the subject residence is typical of the good quality homes in the subject neighborhood, and as such would be considered a reasonable improvement for the subject site, and therefore likely falls within the range of possible profitable improvements to the subject site.

In conclusion, the subject site, as currently improved, was considered the Highest and Best Use of the subject site. [2019]

SUBTOTAL CARRIED TO COST APPROACH:

The Reproduction Cost section is based on data from Marshall Valuation Service (replacement cost), local builder's costs, file data, etc. and is supplemented by the appraiser's knowledge of the local market.

Physical Depreciation is based on observed depreciation and the estimated effective age of the subject property. The depreciation curve from the Marshall Valuation tables is used as a basis for calculating depreciation. Functional and/or External Depreciation, if present, is specifically addressed in the appraisal report or other addenda. In estimating the site value, the appraiser has based the estimate on prior and/or current analysis of site sales and/or abstraction of site values from sales of improved properties.

» COST APPROACH DISCLAIMER:

The Cost Approach to Value, if included in this report, was not intended to be used as "insurance value". Insurance Value and Market Value, no matter which approach is employed, will not necessarily equal the same value. Replacement Cost estimates used in the Cost Approach have been developed for appraisal purposes only, and are based upon the specific requirements as outlined in the Scope of this report. No one, including the intended user or 3rd party referenced in the report, should rely solely on these figures for the purpose of estimating necessary insurance. The definition of "market value" used in this appraisal report is not consistent with the definition of "insurable value" and the Cost Approach indication in this report was not designed to determine insurance value. Replacement Costs as applied for appraisal purposes, while intended to approximate replacement cost under normal market conditions, may be well below actual insurance replacement and/or reproduction costs and may not provide an adequate level of insurance in the event the improvements are substantially destroyed. This difference could be further magnified in the event of mass local destruction in the event of a hurricane, tornado, or severe flooding. In addition, no matter what the extent of the damage or destruction, the applicable building codes may require that certain components be upgraded to current hurricane codes as a part of the rebuilding process which may also significantly increase the replacement cost. The appraiser assumes no liability or risk with respect to anyone relying or using the replacement costs reflected in this report for the purpose of underwriting property insurance. (4/07)

Assumptions, Limiting Conditions & Scope of Work

File No.: 39404 State: FL Zip Code: 34102 Property Address: 1050 8th Ave N City: Naples 542 S Dearborn St, Chicago, IL 60605 Address:

Client: Rachlis Duff Peel & Kaplin, LLC Address: 2335 Tamlami Trail N, Suite 201, Naples, FL 34103 Lawrence G LaCroix, SRA

STATEMENT OF ASSUMPTIONS & LIMITING CONDITIONS

- The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership.

- The appraiser may have provided a sketch in the appraisal report to show approximate dimensions of the improvements, and any such sketch is included only to assist the reader of the report in visualizing the property and understanding the appraiser's determination of its size. Unless

otherwise indicated, a Land Survey was not performed.

- If so indicated, the appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in the appraisal report whether the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.

- The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific

arrangements to do so have been made beforehand.

- If the cost approach is included in this appraisal, the appraiser has estimated the value of the land in the cost approach at its highest and best use, and the improvements at their contributory value. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used. Unless otherwise specifically indicated, the cost approach value is not an insurance value, and should not be used as such.

The appraiser has noted in the appraisal report any adverse conditions (including, but not limited to, needed repairs, depreciation, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property, or that he or she became aware of during the normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any hidden or unapparent conditions of the property, or adverse environmental conditions (including, but not limited to, the presence of hazardous wastes, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered as an environmental assessment of the property.

- The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items

that were furnished by other parties.

- The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.

- If this appraisal is indicated as subject to satisfactory completion, repairs, or alterations, the appraiser has based his or her appraisal report and valuation conclusion on the assumption that completion of the improvements will be performed in a workmanlike manner.

- An appraiser's client is the party (or parties) who engage an appraiser in a specific assignment. Any other party acquiring this report from the client does not become a party to the appraiser-client relationship. Any persons receiving this appraisal report because of disclosure requirements applicable to the appraiser's client do not become intended users of this report unless specifically identified by the client at the time of the

The appraiser's written consent and approval must be obtained before this appraisal report can be conveyed by anyone to the public, through advertising, public relations, news, sales, or by means of any other media, or by its inclusion in a private or public database.

An appraisal of real property is not a 'home inspection' and should not be construed as such. As part of the valuation process, the appraiser performs a non-invasive visual inventory that is not intended to reveal defects or detrimental conditions that are not readily apparent. The presence of such conditions or defects could adversely affect the appraiser's opinion of value. Clients with concerns about such potential negative factors are encouraged to engage the appropriate type of expert to investigate.

When performing the field inspection of the subject property, the appraiser visually observed areas that were readily accessible. The inspection is not technically exhaustive and this inspection does not offer warranties or guarantees of any kind. The appraiser is not required to disturb or move anything that obstructs access or visibility. The appraisal cannot be relied upon to disclose conditions and/or defects in the property. The appraiser has no implied duty to the borrower to assume the role of a professional home inspector.

The CLIENT is hereby advised that this appraisal is NOT a home inspection and the appraiser is NOT acting as a home inspector when preparing the report. The borrower or client has the right to have the home or apartment inspected by a professional home inspector and this is highly recommended if the borrower or client wishes to be certain that there are not any hidden or undisclosed defects in the subject property that may affect the value. In the event that a home inspection has been, or is subsequently performed by a professional home inspector, the borrower or client should refer any pertinent information received in that report to the appraiser to determine if there would be any change in the appraised value as a result of that information.

The SCOPE OF WORK is the type and extent of research and analyses performed in an appraisal assignment that is required to produce credible assignment results, given the nature of the appraisal problem, the specific requirements of the intended user(s) and the intended use of the appraisal report. Reliance upon this report, regardless of how acquired, by any party or for any use, other than those specified in this report by the Appraiser, is prohibited. The Opinion of Value that is the conclusion of this report is credible only within the context of the Scope of Work, Effective Date, the Date of Report, the Intended User(s), the Intended Use, the stated Assumptions and Limiting Conditions, any Hypothetical Conditions and/or Extraordinary Assumptions, and the Type of Value, as defined herein. The appraiser, appraisal firm, and related parties assume no obligation, liability, or accountability, and will not be responsible for any unauthorized use of this report or its conclusions.

- Data in the appraisal may be collected by the appraiser from a variety of sources including, but not limited to: public records, MLS services, or other identified sources, as well as inspection of the subject property and neighborhood. The original source of the market comparables used in the report is shown in the Data Source section of the market grid along with the source of confirmation, if confirmation is available. The original source of the data is presented first. The sources utilized for data within this report are considered reliable. When conflicting information was provided, the source deemed most reliable has been used. Data believed to be unreliable was not included in the report nor used as a basis for the value conclusion.
- Legal description of the subject property was supplied by client or determined from public records, or both, and is assumed to be accurate. No additional verification of legal description was made by appraiser.
- This appraisal was performed at the request of, and for the express use of, the Client indicated on page one. Reliance by others shall be limited to the intended use of the original client as stated on page one and any other use of this appraisal shall be deemed an unauthorized use. (asi 9/2013)

Penicillium aspergillus and other allergenic molds shall not be deemed a Defective Inspection Item for purposes of this Contract, and/or (6) any void, expired, issued, open, under review or other building permits which have not been finaled, completed, issued a certificate of occupancy or completion or otherwise resolved without necessity of further action as documented by the applicable governmental agency (collectively "Open Permits"), or any unlawful non-conforming structures, or any unpermitted improvements, or existing violations of local ordinances or codes (collectively the "Defective Inspection Items"), and if BUYER elects recourse from SELLER for any Defective Inspection Item(s), BUYER shall, not later than 5 days after expiration of the Inspection Period ("BUYER's Election Deadline"): (a) notify SELLER of any Defective Inspection Items, and (b) furnish to SELLER a complete copy of the inspection report(s) documenting the Defective Inspection Items, and (c) notify SELLER of BUYER's election either to: (i) receive a credit from SELLER at closing in lieu of any repairs, replacements, treatment, mitigation or other remedial action necessary to bring the Defective Inspection Items into compliance with the relevant standards set forth above (the "Remedial Action"). If BUYER elects to receive a credit, the amount of the credit shall be stated at the time of BUYER's election, and be equivalent to the estimated costs of the Remedial Action, as evidenced by written estimates/proposals issued to BUYER by parties appropriately licensed to perform said Remedial Action, or (ii) have SELLER take Remedial Action at SELLER's expense, or (iii) a combination of (i) and (ii) ("BUYER's Election"). If SELLER refuses or counters BUYER's Election with respect to any Defective Inspection Item(s) by the SELLER's Response Deadline, then BUYER may terminate this Contract not later than 5 days after receipt of SELLER's Response. If SELLER refuses BUYER's election with respect to any Defective Inspection Item(s) by SELLER's Response Deadline and BUYER does not elect to terminate this Contract, BUYER is deemed to have accepted the Property and Systems and Equipment in the condition they existed on the Effective Date, except that BUYER retains the walk-through inspection rights set forth in Standard D.2.d.(2),(3), and (4) below. Notwithstanding the foregoing, if SELLER counters BUYER's Election with respect to any Defective Inspection Item(s) and BUYER does not timely elect to terminate this Contract, BUYER is deemed to have accepted SELLER's Response to BUYER's Election. If SELLER fails to respond by the SELLER's Response Deadline, SELLER shall be deemed to have refused BUYER's Election with respect to any Defective Inspection Item(s), and BUYER may terminate this Contract not later than 5 days after the SELLER's Response Deadline.

If any Remedial Action requested by BUYER requires the approval of any community association governing the Property, and SELLER fails to furnish BUYER with written documentation of said association's approval not later than 5 days prior to the Closing Date, BUYER may terminate this Contract.

If BUYER does not have the Inspection Items inspected, or fails to do so within the Inspection Period, or fails to timely report any Defective Inspection Items to SELLER, BUYER shall be deemed to have accepted the Property and Systems and Equipment in the condition they existed on the Effective Date, except that BUYER retains the rights set forth in Standard D.2.d.(2), (3), and (4) below.

SELLER shall make a diligent effort to perform and complete all Remedial Action prior to the Closing Date, failing which a sum equivalent to 200% of the estimated costs of completing the Remedial Action, as shown in the written proposal(s) and without regard to any deposit prepaid by SELLER for said Remedial Action, shall be paid by SELLER into escrow at closing pending SELLER's completion of the Remedial Action. The escrow sum is not a cap on SELLER's liability for completion of the Remedial Action.

The scope of SELLER's Maintenance Obligation shall not include or extend to any item for which SELLER has no maintenance, repair or replacement obligation under the governing documents of any applicable condominium or homeowners' association. If SELLER fails to perform SELLER's Maintenance Obligation as required in this Standard, SELLER shall, at BUYER's request, either (i) perform appropriate repair, replacement, treatment mitigation or other remedial action necessary to comply with Seller's Maintenance Obligation with respect to the Property and/or repair or replace the Personal Property to the condition required by this Standard prior to the Closing Date (collectively, "Maintenance Obligation Remedial Action"), or (ii) provide a credit acceptable to BUYER at closing equivalent to the estimated cost of the Maintenance Obligation Remedial Action required by this Standard. If SELLER is obligated to perform the Maintenance Obligation Remedial Action and falls to do so prior to the Closing Date and the parties are unable to agree upon a credit amount, SELLER shall escrow at closing a sum equivalent to 200% of the estimated costs for payment to appropriately licensed contractor(s) performing the Maintenance Obligation Remedial Action. The escrow sum is not a cap on SELLER's liability for completion of the Maintenance Obligation Remedial Action.

- d. SELLER shall maintain all existing casualty, wind, hurricane and flood insurance until disbursement.
- (ii) AVAILABILITY OF INSURANCE AND SERVICES ESSENTIAL FOR CLOSING. If, as a result of the Casualty, BUYER is unable to obtain hazard, flood, wind or homeowner's insurance or is unable to obtain such insurance at a reasonable rate and/or if services essential for closing are not available by the Closing Date as a result of the Casualty, BUYER may delay the Closing Date until a date that is up to 5 days after said coverage becomes available and services essential for closing are restored. If said coverage is not available and/or said essential services are not restored for a period of 30 continuous days after the Casualty date, either SELLER or BUYER may terminate this Contract not later than 35 days after the Casualty date.

- (v) BUYER LIMITED PURPOSE POST-CASUALTY INSPECTION RIGHTS. Not later than 5 days after SELLER notifies BUYER that safe access to the Property is available following a Casualty, BUYER and/or BUYER's designated representative(s) may conduct an inspection of the Property (in addition to any walk-through inspection that BUYER may have conducted prior to the Casualty and/or is entitled to prior to closing), for the limited purpose of identifying any loss or damage to the Property, the Personal Property and Systems and Equipment as a result of the Casualty ("Post-Casualty Inspection"). UNIFORM COVENANTS. Borrower and Lender covenant and agree as follows:

1. Payment of Principal, Interest, Escrow Items, Prepayment Charges, and Late Charges. Borrower shall pay when due the principal of, and interest on, the debt evidenced by the Note and any prepayment charges and late charges due under the Note. Borrower shall also pay funds for Escrow Items pursuant to Section 3. Payments due under the Note and this Security Instrument shall be made in U.S. currency. However, if any check or other instrument received by Lender as payment under the Note or this Security Instrument is returned to Lender unpaid, Lender may require that any or all subsequent payments due under the Note and this Security Instrument be made in one or more of the following forms, as selected by Lender: (a) cash; (b) money order; (c) certified check, bank check, treasurer's check or cashier's check, provided any such check is drawn upon an institution whose deposits are insured by a federal agency, instrumentality, or entity; or (d) Electronic Funds Transfer.

Payments are deemed received by Lender when received at the location designated in the Note or at such other location as may be designated by Lender in accordance with the notice provisions in Section 15. Lender may return any payment or partial payment if the payment or partial payments are insufficient to bring the Loan current. Lender may accept any payment or partial payment insufficient to bring the Loan current, without waiver of any rights hereunder or prejudice to its rights to refuse such payment or partial payments in the future, but Lender is not obligated to apply such payments at the time such payments are accepted. If each Periodic Payment is applied as of its scheduled due date, then Lender need not pay interest on unapplied funds. Lender may hold such unapplied funds until Borrower makes payment to bring the Loan current. If Borrower does not do so within a reasonable period of time, Lender shall either apply such funds or return them to Borrower. If not applied earlier, such funds will be applied to the outstanding principal balance under the Note immediately prior to foreclosure. No offset or claim which Borrower might have now or in the future against Lender shall relieve Borrower from making payments due under the Note and this Security Instrument or performing the covenants and agreements secured by this Security Instrument

2. Application of Payments or Proceeds. Except as otherwise described in this Section 2, all payments accepted and applied by Lender shall be applied in the following order of priority: (a) interest due under the Note; (b) principal due under the Note; (c) amounts due under Section 3. Such payments shall be applied to each Periodic Payment in the order in which it became due. Any remaining amounts shall be applied first to late charges, second to any other amounts due under this Security Instrument, and then to reduce the principal balance of the Note.

If Lender receives a payment from Borrower for a delinquent Periodic Payment which includes a sufficient amount to pay any late charge due, the payment may be applied to the delinquent payment and the late charge. If more than one Periodic Payment is outstanding, Lender may apply any payment received from Borrower to the repayment of the Periodic Payments if, and to the extent that, each payment can be paid in full. To the extent that any excess exists after the payment is applied to the full payment of one or more Periodic Payments, such excess may be applied to any late charges due. Voluntary prepayments shall be applied first to any prepayment charges and then as described in the Note.

Any application of payments, insurance proceeds, or Miscellaneous Proceeds to principal due under the Note shall not extend or postpone the due date, or change the amount, of the Periodic Payments.

3. Funds for Escrow Items. Borrower shall pay to Lender on the day Periodic Payments are due under the Note, until the Note is paid in full, a sum (the "Funds") to provide for payment of amounts due for: (a) taxes and assessments and other items which can attain priority over this Security Instrument as a lien or encumbrance on the Property; (b) leasehold payments or ground rents on the Property, if any; (c) premiums for any and all insurance required by Lender under Section 5; and (d) Mortgage Insurance premiums, if any, or any sums payable by Borrower to Lender in lieu of the payment of Mortgage Insurance premiums in accordance with the provisions of Section 10. These items are called "Escrow Items." At origination or at any time during the term of the Loan, Lender may require that Community Association Dues, Fees, and Assessments, if any, be escrowed by Borrower, and such dues, fees and

FLORIDA-Single Family-Fannie Mee/Freddie Mac UNIFORM INSTRUMENT - MERS Form 3010 1/01 Page 4 of 15 assessments shall be an Escrow Item. Borrower shall promptly furnish to Lender all notices of amounts to be paid under this Section. Borrower shall pay Lender the Funds for Escrow Items unless Lender waives Borrower's obligation to pay the Funds for any or all Escrow Items. Lender may waive Borrower's obligation to pay to Lender Funds for any or all Escrow Items at any time. Any such waiver may only be in writing. In the event of such waiver, Borrower shall pay directly, when and where payable, the amounts due for any Escrow Items for which payment of Funds has been waived by Lender and, if Lender requires, shall furnish to Lender receipts evidencing such payment within such time period as Lender may require. Borrower's obligation to make such payments and to provide receipts shall for all purposes be deemed to be a covenant and agreement contained in this Security Instrument, as the phrase "covenant and agreement" is used in Section 9. If Borrower is obligated to pay Escrow Items directly, pursuant to a waiver, and Borrower fails to pay the amount due for an Escrow Item, Lender may exercise its rights under Section 9 and pay such amount and Borrower shall then be obligated under Section 9 to repay to Lender any such amount. Lender may revoke the waiver as to any or all Escrow Items at any time by a notice given in accordance with Section 15 and, upon such revocation, Borrower shall pay to Lender all Funds, and in such amounts, that are then required under this Section 3.

Lender may, at any time, collect and hold Funds in an amount (a) sufficient to permit Lender to apply the Funds at the time specified under RESPA, and (b) not to exceed the maximum amount a lender can require under RESPA. Lender shall estimate the amount of Funds due on the basis of current data and reasonable estimates of expenditures of future Escrow Items or otherwise in accordance with Applicable Law.

The Funds shall be held in an institution whose deposits are insured by a federal agency, instrumentality, or entity (including Lender, if Lender is an institution whose deposits are so insured) or in any Federal Home Loan Bank. Lender shall apply the Funds to pay the Escrow Items no later than the time specified under RESPA. Lender shall not charge Borrower for holding and applying the Funds, annually analyzing the escrow account, or verifying the Escrow Items, unless Lender pays Borrower interest on the Funds and Applicable Law permits Lender to make such a charge. Unless an agreement is made in writing or Applicable Law requires interest to be paid on the Funds, Lender shall not be required to pay Borrower any interest or earnings on the Funds. Borrower and Lender can agree in writing, however, that interest shall be paid on the Funds. Lender shall give to Borrower, without charge, an annual accounting of the Funds as required by RESPA.

If there is a surplus of Funds held in escrow, as defined under RESPA, Lender shall account to Borrower for the excess funds in accordance with RESPA. If there is a shortage of Funds held in escrow, as defined under RESPA, Lender shall notify Borrower as required by RESPA, and Borrower shall pay to Lender the amount necessary to make up the shortage in accordance with RESPA, but in no more than 12 monthly payments. If there is a deficiency of Funds held in escrow, as defined under RESPA, Lender shall notify Borrower as required by RESPA, and Borrower shall pay to Lender the amount necessary to make up the deficiency in accordance with RESPA, but in no more than 12 monthly payments.

Upon payment in full of all sums secured by this Security Instrument, Lender shall promptly refund to Borrower any Funds held by Lender.

4. Charges; Liens. Borrower shall pay all taxes, assessments, charges, fines, and impositions attributable to the Property which can attain priority over this Security Instrument, leasehold payments or ground rents on the Property, if any, and Community Association Dues, Fees, and Assessments, if any. To the extent that these items are Escrow Items, Borrower shall pay them in the manner provided in Section 3.

Borrower shall promptly discharge any lien which has priority over this Security Instrument unless Borrower: (a) agrees in writing to the payment of the obligation secured by the lien in a manner acceptable to Lender, but only so long as Borrower is performing such agreement; (b) contests the lien in good faith by, or defends against enforcement of the lien in, legal proceedings which in Lender's opinion operate to prevent the enforcement of the lien while those proceedings are pending, but only until such proceedings are concluded; or (c) secures from the holder

FLORIDA-Single Family-Fannie Mae/Freddie Mac UNIFORM INSTRUMENT - MERS Form 3010 1/01 Page 5 of 15 OR 5190

of the lien an agreement satisfactory to Lender subordinating the lien to this Security Instrument. If Lender determines that any part of the Property is subject to a lien which can attain priority over this Security Instrument, Lender may give Borrower a notice identifying the lien. Within 10 days of the date on which that notice is given, Borrower shall satisfy the lien or take one or more of the actions set forth above in this Section 4.

Lender may require Borrower to pay a one-time charge for a real estate tax verification and/or reporting service used by Lender in connection with this Loan.

5. Property Insurance. Borrower shall keep the improvements now existing or hereafter erected on the Property insured against loss by fire, hazards included within the term "extended coverage," and any other hazards including, but not limited to, earthquakes and floods, for which Lender requires insurance. This insurance shall be maintained in the amounts (including deductible levels) and for the periods that Lender requires. What Lender requires pursuant to the preceding sentences can change during the term of the Loan. The insurance carrier providing the insurance shall be chosen by Borrower subject to Lender's right to disapprove Borrower's choice, which right shall not be exercised unreasonably. Lender may require Borrower to pay, in connection with this Loan, either: (a) a one-time charge for flood zone determination and certification services and subsequent charges each time remappings or similar changes occur which reasonably might affect such determination or certification. Borrower shall also be responsible for the payment of any fees imposed by the Federal Emergency Management Agency in connection with the review of any flood zone determination resulting from an objection by Borrower.

If Borrower fails to maintain any of the coverages described above, Lender may obtain insurance coverage, at Lender's option and Borrower's expense. Lender is under no obligation to purchase any particular type or amount of coverage. Therefore, such coverage shall cover Lender, but might or might not protect Borrower, Borrower's equity in the Property, or the contents of the Property, against any risk, hazard or liability and might provide greater or lesser coverage than was previously in effect. Borrower acknowledges that the cost of the insurance coverage so obtained might significantly exceed the cost of insurance that Borrower could have obtained. Any amounts disbursed by Lender under this Section 5 shall become additional debt of Borrower secured by this Security Instrument. These amounts shall bear interest at the Note rate from the date of disbursement and shall be payable, with such interest, upon notice from Lender to Borrower requesting payment.

All insurance policies required by Lender and renewals of such policies shall be subject to Lender's right to disapprove such policies, shall include a standard mortgage clause, and shall name Lender as mortgagee and/or as an additional loss payee. Lender shall have the right to hold the policies and renewal certificates. If Lender requires, Borrower shall promptly give to Lender all receipts of paid premiums and renewal notices. If Borrower obtains any form of insurance coverage, not otherwise required by Lender, for damage to, or destruction of, the Property, such policy shall include a standard mortgage clause and shall name Lender as mortgagee and/or as an additional loss payee.

In the event of loss, Borrower shall give prompt notice to the insurance carrier and Lender. Lender may make proof of loss if not made promptly by Borrower. Unless Lender and Borrower otherwise agree in writing, any insurance proceeds, whether or not the underlying insurance was required by Lender, shall be applied to restoration or repair of the Property, if the restoration or repair is economically feasible and Lender's security is not lessened. During such repair and restoration period, Lender shall have the right to hold such insurance proceeds until Lender has had an opportunity to inspect such Property to ensure the work has been completed to Lender's satisfaction, provided that such inspection shall be undertaken promptly. Lender may disburse proceeds for the repairs and restoration in a single payment or in a series of progress payments as the work is completed. Unless an agreement is made in writing or Applicable Law requires interest to be paid on such insurance proceeds, Lender shall not be required to pay Borrower any interest or earnings on such proceeds. Fees for public adjusters, or other third parties, retained by Borrower shall not be paid out of the insurance proceeds and shall be the sole obligation of Borrower.

FLORIDA/Single Family-Fannie Mae/Freddie Mac UNIFORM INSTRUMENT - MERS Form 3010/1/01 Page 6 of 15 or 5190

If the restoration or repair is not economically feasible or Lender's security would be lessened, the insurance proceeds shall be applied to the sums secured by this Security Instrument, whether or not then due, with the excess, if any, paid to Borrower. Such insurance proceeds shall be applied in the order provided for in Section 2.

If Borrower abandons the Property, Lender may file, negotiate and settle any available insurance claim and related matters. If Borrower does not respond within 30 days to a notice from Lender that the insurance carrier has offered to settle a claim, then Lender may negotiate and settle the claim. The 30-day period will begin when the notice is given. In either event, or if Lender acquires the Property under Section 22 or otherwise, Borrower hereby assigns to Lender (a) Borrower's rights to any insurance proceeds in an amount not to exceed the amounts unpaid under the Note or this Security Instrument, and (b) any other of Borrower's rights (other than the right to any refund of unearned premiums paid by Borrower) under all insurance policies covering the Property, insofar as such rights are applicable to the coverage of the Property. Lender may use the insurance proceeds either to repair or restore the Property or to pay amounts unpaid under the Note or this Security Instrument, whether or not then due.

- 6. Occupancy. Borrower shall occupy, establish, and use the Property as Borrower's principal residence within 60 days after the execution of this Security Instrument and shall continue to occupy the Property as Borrower's principal residence for at least one year after the date of occupancy, unless Lender otherwise agrees in writing, which consent shall not be unreasonably withheld, or unless extenuating circumstances exist which are beyond Borrower's control.
- 7. Preservation, Maintenance and Protection of the Property; Inspections. Borrower shall not destroy, damage or impair the Property, allow the Property to deteriorate or commit waste on the Property. Whether or not Borrower is residing in the Property, Borrower shall maintain the Property in order to prevent the Property from deteriorating or decreasing in value due to its condition. Unless it is determined pursuant to Section 5 that repair or restoration is not economically feasible, Borrower shall promptly repair the Property if damaged to avoid further deterioration or damage. If insurance or condemnation proceeds are paid in connection with damage to, or the taking of, the Property, Borrower shall be responsible for repairing or restoring the Property only if Lender has released proceeds for such purposes. Lender may disburse proceeds for the repairs and restoration in a single payment or in a scries of progress payments as the work is completed. If the insurance or condemnation proceeds are not sufficient to repair or restore the Property, Borrower is not relieved of Borrower's obligation for the completion of such repair or restoration.

Lender or its agent may make reasonable entries upon and inspections of the Property. If it has reasonable cause, Lender may inspect the interior of the improvements on the Property. Lender shall give Borrower notice at the time of or prior to such an interior inspection specifying such reasonable cause.

- 8. Borrower's Loan Application. Borrower shall be in default if, during the Loan application process, Borrower or any persons or entities acting at the direction of Borrower or with Borrower's knowledge or consent gave materially false, misleading, or inaccurate information or statements to Lender (or failed to provide Lender with material information) in connection with the Loan. Material representations include, but are not limited to, representations concerning Borrower's occupancy of the Property as Borrower's principal residence.
- 9. Protection of Lender's Interest in the Property and Rights Under this Security Instrument. If (a) Borrower fails to perform the covenants and agreements contained in this Security Instrument, (b) there is a legal proceeding that might significantly affect Lender's interest in the Property and/or rights under this Security Instrument (such as a proceeding in bankruptcy, probate, for condemnation or forfeiture, for enforcement of a lien which may attain priority over this Security Instrument or to enforce laws or regulations), or (c) Borrower has abandoned the Property, then Lender may do and pay for whatever is reasonable or appropriate to protect Lender's interest in the Property and rights under this Security Instrument, including protecting and/or assessing the value of the Property, and securing and/or repairing the Property. Lender's actions can include, but are not limited to: (a) paying any sums secured by a lien which has priority over this Security Instrument; (b) appearing in court; and (c) paying reasonable

LORIDA—Single Family—Fannie Mae/Freddie Mac UNIFORM INSTRUMENT - MERS

attorneys' fees to protect its interest in the Property and/or rights under this Security Instrument; including its secured position in a bankruptcy proceeding. Securing the Property includes, but is not limited to, entering the Property to make repairs, change locks, replace or board up doors and windows, drain water from pipes, eliminate building or other code violations or dangerous conditions, and have utilities turned on or off. Although Lender may take action under this Section 9, Lender does not have to do so and is not under any duty or obligation to do so. It is agreed that Lender incurs no liability for not taking any or all actions authorized under this Section 9.

Any amounts disbursed by Lender under this Section 9 shall become additional debt of Borrower secured by this Security Instrument. These amounts shall bear interest at the Note rate from the date of disbursement and shall be payable, with such interest, upon notice from Lender to Borrower requesting payment.

If this Security Instrument is on a leasehold, Borrower shall comply with all the provisions of the lease. Borrower shall not surrender the leasehold estate and interests herein conveyed or terminate or cancel the ground lease. Borrower shall not, without the express written consent of Lender, alter or amend the ground lease. If Borrower acquires fee title to the Property, the leasehold and the fee title shall not merge unless Lender agrees to the merger in writing.

10. Mortgage Insurance. If Lender required Mortgage Insurance as a condition of making the Loan, Borrower shall pay the premiums required to maintain the Mortgage Insurance in effect. If, for any reason, the Mortgage Insurance coverage required by Lender ceases to be available from the mortgage insurer that previously provided such insurance and Borrower was required to make separately designated payments toward the premiums for Mortgage Insurance, Borrower shall pay the premiums required to obtain coverage substantially equivalent to the Mortgage Insurance previously in effect, at a cost substantially equivalent to the cost to Borrower of the Mortgage Insurance previously in effect, from an alternate mortgage insurer selected by Lender. If substantially equivalent Mortgage Insurance coverage is not available, Borrower shall continue to pay to Lender the amount of the separately designated payments that were due when the insurance coverage ceased to be in effect. Lender will accept, use and retain these payments as a non-refundable loss reserve in lieu of Mortgage Insurance. Such loss reserve shall be non-refundable, notwithstanding the fact that the Loan is ultimately paid in full, and Lender shall not be required to pay Borrower any interest or earnings on such loss reserve. Lender can no longer require loss reserve payments if Mortgage Insurance coverage (in the amount and for the period that Lender requires) provided by an insurer selected by Lender again becomes available, is obtained, and Lender requires separately designated payments toward the premiums for Mortgage Insurance. If Lender required Mortgage Insurance as a condition of making the Loan and Borrower was required to make separately designated payments toward the premiums for Mortgage Insurance, Borrower shall pay the premiums required to maintain Mortgage Insurance in effect, or to provide a non-refundable loss reserve, until Lender's requirement for Mortgage Insurance ends in accordance with any written agreement between Borrower and Lender providing for such termination or until termination is required by Applicable Law. Nothing in this Section 10 affects Borrower's obligation to pay interest at the rate provided in the Note.

Mortgage Insurance reimburses Lender (or any entity that purchases the Note) for certain losses it may incur if Borrower does not repay the Loan as agreed. Borrower is not a party to the Mortgage Insurance.

Mortgage insurers evaluate their total risk on all such insurance in force from time to time, and may enter into agreements with other parties that share or modify their risk, or reduce losses. These agreements are on terms and conditions that are satisfactory to the mortgage insurer and the other party (or parties) to these agreements. These agreements may require the mortgage insurer to make payments using any source of funds that the mortgage insurer may have available (which may include funds obtained from Mortgage Insurance premiums).

As a result of these agreements, Lender, any purchaser of the Note, another insurer, any reinsurer, any other entity, or any affiliate of any of the foregoing, may receive (directly or indirectly) amounts that derive from (or might be characterized as) a portion of Borrower's payments for Mortgage Insurance, in exchange for sharing or modifying the mortgage insurer's risk, or reducing losses. If such agreement provides that an affiliate of Lender takes a share

DocMagic EForms www.docmagic.com OR 5190

of the insurer's risk in exchange for a share of the premiums paid to the insurer, the arrangement is often termed "captive reinsurance." Further:

- (a) Any such agreements will not affect the amounts that Borrower has agreed to pay for Mortgage Insurance, or any other terms of the Loan. Such agreements will not increase the amount Borrower will owe for Mortgage Insurance, and they will not entitle Borrower to any refund.
- (b) Any such agreements will not affect the rights Borrower has if any with respect to the Mortgage Insurance under the Homeowners Protection Act of 1998 or any other law. These rights may include the right to receive certain disclosures, to request and obtain cancellation of the Mortgage Insurance, to have the Mortgage Insurance terminated automatically, and/or to receive a refund of any Mortgage Insurance premiums that were unearned at the time of such cancellation or termination.
- 11. Assignment of Miscellaneous Proceeds; Forfeiture. All Miscellaneous Proceeds are hereby assigned to and shall be paid to Lender.

If the Property is damaged, such Miscellaneous Proceeds shall be applied to restoration or repair of the Property, if the restoration or repair is economically feasible and Lender's security is not lessened. During such repair and restoration period, Lender shall have the right to hold such Miscellaneous Proceeds until Lender has had an opportunity to inspect such Property to ensure the work has been completed to Lender's satisfaction, provided that such inspection shall be undertaken promptly. Lender may pay for the repairs and restoration in a single disbursement or in a series of progress payments as the work is completed. Unless an agreement is made in writing or Applicable Law requires interest to be paid on such Miscellaneous Proceeds, Lender shall not be required to pay Borrower any interest or earnings on such Miscellaneous Proceeds. If the restoration or repair is not economically feasible or Lender's security would be lessened, the Miscellaneous Proceeds shall be applied to the sums secured by this Security Instrument, whether or not then due, with the excess, if any, paid to Borrower. Such Miscellaneous Proceeds shall be applied in the order provided for in Section 2.

In the event of a total taking, destruction, or loss in value of the Property, the Miscellaneous Proceeds shall be applied to the sums secured by this Security Instrument, whether or not then due, with the excess, if any, paid to Borrower.

In the event of a partial taking, destruction, or loss in value of the Property in which the fair market value of the Property immediately before the partial taking, destruction, or loss in value is equal to or greater than the amount of the sums secured by this Security Instrument immediately before the partial taking, destruction, or loss in value, unless Borrower and Lender otherwise agree in writing, the sums secured by this Security Instrument shall be reduced by the amount of the Miscellaneous Proceeds multiplied by the following fraction: (a) the total amount of the sums secured immediately before the partial taking, destruction, or loss in value divided by (b) the fair market value of the Property immediately before the partial taking, destruction, or loss in value. Any balance shall be paid to Borrower.

In the event of a partial taking, destruction, or loss in value of the Property in which the fair market value of the Property immediately before the partial taking, destruction, or loss in value is less than the amount of the sums secured immediately before the partial taking, destruction, or loss in value, unless Borrower and Lender otherwise agree in writing, the Miscellaneous Proceeds shall be applied to the sums secured by this Security Instrument whether or not the sums are then due.

If the Property is abandoned by Borrower, or if, after notice by Lender to Borrower that the Opposing Party (as defined in the next sentence) offers to make an award to settle a claim for damages, Borrower fails to respond to Lender within 30 days after the date the notice is given, Lender is authorized to collect and apply the Miscellaneous Proceeds either to restoration or repair of the Property or to the sums secured by this Security Instrument, whether or not then due. "Opposing Party" means the third party that owes Borrower Miscellaneous Proceeds or the party against whom Borrower has a right of action in regard to Miscellaneous Proceeds.

or Of

Borrower shall be in default if any action or proceeding, whether civil or criminal, is begun that, in Lender's judgment, could result in forfeiture of the Property or other material impairment of Lender's interest in the Property or rights under this Security Instrument. Borrower can cure such a default and, if acceleration has occurred, reinstate as provided in Section 19, by causing the action or proceeding to be dismissed with a ruling that, in Lender's judgment, precludes forfeiture of the Property or other material impairment of Lender's interest in the Property or rights under this Security Instrument. The proceeds of any award or claim for damages that are attributable to the impairment of Lender's interest in the Property are hereby assigned and shall be paid to Lender.

All Miscellaneous Proceeds that are not applied to restoration or repair of the Property shall be applied in the order provided for in Section 2.

- 12. Borrower Not Released; Forbearance By Lender Not a Waiver. Extension of the time for payment or modification of amortization of the sums secured by this Security Instrument granted by Lender to Borrower or any Successor in Interest of Borrower shall not operate to release the liability of Borrower or any Successors in Interest of Borrower. Lender shall not be required to commence proceedings against any Successor in Interest of Borrower or to refuse to extend time for payment or otherwise modify amortization of the sums secured by this Security Instrument by reason of any demand made by the original Borrower or any Successors in Interest of Borrower. Any forbearance by Lender in exercising any right or remedy including, without limitation, Lender's acceptance of payments from third persons, entities or Successors in Interest of Borrower or in amounts less than the amount then due, shall not be a waiver of or preclude the exercise of any right or remedy.
- 13. Joint and Several Liability; Co-signers; Successors and Assigns Bound. Borrower covenants and agrees that Borrower's obligations and liability shall be joint and several. However, any Borrower who co-signs this Security Instrument but does not execute the Note (a "co-signer"): (a) is co-signing this Security Instrument only to mortgage, grant and convey the co-signer's interest in the Property under the terms of this Security Instrument; (b) is not personally obligated to pay the sums secured by this Security Instrument; and (c) agrees that Lender and any other Borrower can agree to extend, modify, forbear or make any accommodations with regard to the terms of this Security Instrument or the Note without the co-signer's consent.

Subject to the provisions of Section 18, any Successor in Interest of Borrower who assumes Borrower's obligations under this Security Instrument in writing, and is approved by Lender, shall obtain all of Borrower's rights and benefits under this Security Instrument. Borrower shall not be released from Borrower's obligations and liability under this Security Instrument unless Lender agrees to such release in writing. The covenants and agreements of this Security Instrument shall bind (except as provided in Section 20) and benefit the successors and assigns of Lender.

14. Loan Charges. Lender may charge Borrower fees for services performed in connection with Borrower's default, for the purpose of protecting Lender's interest in the Property and rights under this Security Instrument, including, but not limited to, attorneys' fees, property inspection and valuation fees. In regard to any other fees, the absence of express authority in this Security Instrument to charge a specific fee to Borrower shall not be construed as a prohibition on the charging of such fee. Lender may not charge fees that are expressly prohibited by this Security Instrument or by Applicable Law.

If the Loan is subject to a law which sets maximum loan charges, and that law is finally interpreted so that the interest or other loan charges collected or to be collected in connection with the Loan exceed the permitted limits, then: (a) any such loan charge shall be reduced by the amount necessary to reduce the charge to the permitted limit; and (b) any sums already collected from Borrower which exceeded permitted limits will be refunded to Borrower. Lender may choose to make this refund by reducing the principal owed under the Note or by making a direct payment to Borrower. If a refund reduces principal, the reduction will be treated as a partial prepayment without any prepayment charge (whether or not a prepayment charge is provided for under the Note). Borrower's acceptance of any such refund made by direct payment to Borrower will constitute a waiver of any right of action Borrower might have arising out of such overcharge.

- 15. Notices. All notices given by Borrower or Lender in connection with this Security Instrument must be in writing. Any notice to Borrower in connection with this Security Instrument shall be deemed to have been given to Borrower when mailed by first class mail or when actually delivered to Borrower's notice address if sent by other means. Notice to any one Borrower shall constitute notice to all Borrowers unless Applicable Law expressly requires otherwise. The notice address shall be the Property Address unless Borrower has designated a substitute notice address by notice to Lender. Borrower shall promptly notify Lender of Borrower's change of address. If Lender specifies a procedure for reporting Borrower's change of address, then Borrower shall only report a change of address through that specified procedure. There may be only one designated notice address under this Security Instrument at any one time. Any notice to Lender shall be given by delivering it or by mailing it by first class mail to Lender's address stated herein unless Lender has designated another address by notice to Borrower. Any notice in connection with this Security Instrument shall not be deemed to have been given to Lender until actually received by Lender. If any notice required by this Security Instrument is also required under Applicable Law, the Applicable Law requirement will satisfy the corresponding requirement under this Security Instrument.
- 16. Governing Law; Severability; Rules of Construction. This Security Instrument shall be governed by federal law and the law of the jurisdiction in which the Property is located. All rights and obligations contained in this Security Instrument are subject to any requirements and limitations of Applicable Law. Applicable Law might explicitly or implicitly allow the parties to agree by contract or it might be silent, but such silence shall not be construed as a prohibition against agreement by contract. In the event that any provision or clause of this Security Instrument or the Note conflicts with Applicable Law, such conflict shall not affect other provisions of this Security Instrument or the Note which can be given effect without the conflicting provision.

As used in this Security Instrument: (a) words of the masculine gender shall mean and include corresponding neuter words or words of the feminine gender; (b) words in the singular shall mean and include the plural and vice versa; and (c) the word "may" gives sole discretion without any obligation to take any action.

- 17. Borrower's Copy. Borrower shall be given one copy of the Note and of this Security Instrument.
- 18. Transfer of the Property or a Beneficial Interest in Borrower. As used in this Section 18, "Interest in the Property" means any legal or beneficial interest in the Property, including, but not limited to, those beneficial interests transferred in a bond for deed, contract for deed, installment sales contract or escrow agreement, the intent of which is the transfer of title by Borrower at a future date to a purchaser.

If all or any part of the Property or any Interest in the Property is sold or transferred (or if Borrower is not a natural person and a beneficial interest in Borrower is sold or transferred) without Lender's prior written consent, Lender may require immediate payment in full of all sums secured by this Security Instrument. However, this option shall not be exercised by Lender if such exercise is prohibited by Applicable Law.

If Lender exercises this option, Lender shall give Borrower notice of acceleration. The notice shall provide a period of not less than 30 days from the date the notice is given in accordance with Section 15 within which Borrower must pay all sums secured by this Security Instrument. If Borrower fails to pay these sums prior to the expiration of this period, Lender may invoke any remedies permitted by this Security Instrument without further notice or demand on Borrower.

19. Borrower's Right to Reinstate After Acceleration. If Borrower meets certain conditions, Borrower shall have the right to have enforcement of this Security Instrument discontinued at any time prior to the earliest of: (a) five days before sale of the Property pursuant to any power of sale contained in this Security Instrument; (b) such other period as Applicable Law might specify for the termination of Borrower's right to reinstate; or (c) entry of a judgment enforcing this Security Instrument. Those conditions are that Borrower: (a) pays Lender all sums which then would be due under this Security Instrument and the Note as if no acceleration had occurred; (b) cures any default of any other covenants or agreements; (c) pays all expenses incurred in enforcing this Security Instrument, including, but not limited to, reasonable attorneys' fees, property inspection and valuation fees, and other fees incurred for the

LORIDA-Single Family-Fannie Mae/Freddie Mar

or 5190

purpose of protecting Lender's interest in the Property and rights under this Security Instrument; and (d) takes such action as Lender may reasonably require to assure that Lender's interest in the Property and rights under this Security Instrument, and Borrower's obligation to pay the sums secured by this Security Instrument, shall continue unchanged. Lender may require that Borrower pay such reinstatement sums and expenses in one or more of the following forms, as selected by Lender: (a) cash; (b) money order; (c) certified check, bank check, treasurer's check or cashier's check, provided any such check is drawn upon an institution whose deposits are insured by a federal agency, instrumentality or entity; or (d) Electronic Funds Transfer. Upon reinstatement by Borrower, this Security Instrument and obligations secured hereby shall remain fully effective as if no acceleration had occurred. However, this right to reinstate shall not apply in the case of acceleration under Section 18.

20. Sale of Note; Change of Loan Servicer; Notice of Grievance. The Note or a partial interest in the Note (together with this Security Instrument) can be sold one or more times without prior notice to Borrower. A sale might result in a change in the entity (known as the "Loan Servicer") that collects Periodic Payments due under the Note and this Security Instrument and performs other mortgage loan servicing obligations under the Note, this Security Instrument, and Applicable Law. There also might be one or more changes of the Loan Servicer unrelated to a sale of the Note. If there is a change of the Loan Servicer, Borrower will be given written notice of the change which will state the name and address of the new Loan Servicer, the address to which payments should be made and any other information RESPA requires in connection with a notice of transfer of servicing. If the Note is sold and thereafter the Loan is serviced by a Loan Servicer other than the purchaser of the Note, the mortgage loan servicing obligations to Borrower will remain with the Loan Servicer or be transferred to a successor Loan Servicer and are not assumed by the Note purchaser unless otherwise provided by the Note purchaser.

Neither Borrower nor Lender may commence, join, or be joined to any judicial action (as either an individual litigant or the member of a class) that arises from the other party's actions pursuant to this Security Instrument or that alleges that the other party has breached any provision of, or any duty owed by reason of, this Security Instrument, until such Borrower or Lender has notified the other party (with such notice given in compliance with the requirements of Section 15) of such alleged breach and afforded the other party hereto a reasonable period after the giving of such notice to take corrective action. If Applicable Law provides a time period which must elapse before certain action can be taken, that time period will be deemed to be reasonable for purposes of this paragraph. The notice of acceleration and opportunity to cure given to Borrower pursuant to Section 22 and the notice of acceleration given to Borrower pursuant to Section 18 shall be deemed to satisfy the notice and opportunity to take corrective action provisions of this Section 20.

21. Hazardous Substances. As used in this Section 21: (a) "Hazardous Substances" are those substances defined as toxic or hazardous substances, pollutants, or wastes by Environmental Law and the following substances: gasoline, kerosene, other flammable or toxic petroleum products, toxic pesticides and herbicides, volatile solvents, materials containing asbestos or formaldehyde, and radioactive materials; (b) "Environmental Law" means federal laws and laws of the jurisdiction where the Property is located that relate to health, safety or environmental protection; (c) "Environmental Cleanup" includes any response action, remedial action, or removal action, as defined in Environmental Law and (d) an "Environmental Condition" means a condition that can cause, contribute to, or otherwise trigger an Environmental Cleanup.

Borrower shall not cause or permit the presence, use, disposal, storage, or release of any Hazardous Substances, or threaten to release any Hazardous Substances, on or in the Property. Borrower shall not do, nor allow anyone else to do, anything affecting the Property (a) that is in violation of any Environmental Law, (b) which creates an Environmental Condition, or (c) which, due to the presence, use, or release of a Hazardous Substance, creates a condition that adversely affects the value of the Property. The preceding two sentences shall not apply to the presence, use, or storage on the Property of small quantities of Hazardous Substances that are generally recognized

FLOBUDA-Single Family-Fannie Mae/Freddie Mac UNIFORM INSTRUMENT - MERS Form 3010 1/01 Page 12 of 15 OR 5190

to be appropriate to normal residential uses and to maintenance of the Property (including, but not limited to, hazardous substances in consumer products).

Borrower shall promptly give Lender written notice of (a) any investigation, claim, demand, lawsuit or other action by any governmental or regulatory agency or private party involving the Property and any Hazardous Substance or Environmental Law of which Borrower has actual knowledge, (b) any Environmental Condition, including but not limited to, any spilling, leaking, discharge, release or threat of release of any Hazardous Substance, and (c) any condition caused by the presence, use or release of a Hazardous Substance which adversely affects the value of the Property. If Borrower learns, or is notified by any governmental or regulatory authority, or any private party, that any removal or other remediation of any Hazardous Substance affecting the Property is necessary, Borrower shall promptly take all necessary remedial actions in accordance with Environmental Law. Nothing herein shall create any obligation on Lender for an Environmental Cleanup.

NON-UNIFORM COVENANTS. Borrower and Lender further covenant and agree as follows:

- 22. Acceleration; Remedies. Lender shall give notice to Borrower prior to acceleration following Borrower's breach of any covenant or agreement in this Security Instrument (but not prior to acceleration under Section 18 unless Applicable Law provides otherwise). The notice shall specify: (a) the default; (b) the action required to cure the default; (c) a date, not less than 30 days from the date the notice is given to Borrower, by which the default must be cured; and (d) that failure to cure the default on or before the date specified in the notice may result in acceleration of the sums secured by this Security Instrument, foreclosure by judicial proceeding and sale of the Property. The notice shall further inform Borrower of the right to reinstate after acceleration and the right to assert in the foreclosure proceeding the non-existence of a default or any other defense of Borrower to acceleration and foreclosure. If the default is not cured on or before the date specified in the notice, Lender at its option may require immediate payment in full of all sums secured by this Security Instrument without further demand and may foreclose this Security Instrument by judicial proceeding. Lender shall be entitled to collect all expenses incurred in pursuing the remedies provided in this Section 22, including, but not limited to, reasonable attorneys' fees and costs of title evidence.
- 23. Release. Upon payment of all sums secured by this Security Instrument, Lender shall release this Security Instrument. Borrower shall pay any recordation costs. Lender may charge Borrower a fee for releasing this Security Instrument, but only if the fee is paid to a third party for services rendered and the charging of the fee is permitted under Applicable Law.
- 24. Attorneys' Fees. As used in this Security Instrument and the Note, attorneys' fees shall include those awarded by an appellate court and any attorneys' fees incurred in a bankruptcy proceeding.
- 25. Jury Trial Waiver. The Borrower hereby waives any right to a trial by jury in any action, proceeding, claim, or counterclaim, whether in contract or tort, at law or in equity, arising out of or in any way related to this Security Instrument or the Note.

FIXED/ADJUSTABLE RATE RIDER

(LIBOR One-Year Index (As Published InThe Wall Street Journal) - Rate Caps)

THIS FIXED/ADJUSTABLE RATE RIDER is made this 26th day of AUGUST , and is incorporated into and shall be deemed to amend and supplement the Mortgage, Deed of Trust, or Security Deed (the "Security Instrument") of the same date given by the undersigned ("Borrower") to secure Borrower's Fixed/Adjustable Rate Note (the "Note") to FLAGSTAR BANK, FSB, Federally Chartered Savings Bank ("Lender") of the same date and covering the property described in the Security Instrument and located at:

> 1050 8TH AVE N, NAPLES, FLORIDA 34102-8115 [Property Address]

THE NOTE PROVIDES FOR A CHANGE IN BORROWER'S FIXED INTEREST RATE TO AN ADJUSTABLE INTEREST RATE. THE NOTE LIMITS THE AMOUNT BORROWER'S ADJUSTABLE INTEREST RATE CAN CHANGE AT ANY ONE TIME AND THE MAXIMUM RATE BORROWER MUST PAY.

ADDITIONAL COVENANTS. In addition to the covenants and agreements made in the Security Instrument, Borrower and Lender further covenant and agree as follows:

ADJUSTABLE RATE AND MONTHLY PAYMENT CHANGES Α.

The Note provides for an initial fixed interest rate of 4.000 %. The Note also provides for a change in the initial fixed rate to an adjustable interest rate, as follows:

ADJUSTABLE INTEREST RATE AND MONTHLY PAYMENT CHANGES

(A) Change Dates

The initial fixed interest rate I will pay will change to an adjustable interest rate on the first day of SEPTEMBER, 2022 , and the adjustable interest rate I will pay may change on that day every 12th month thereafter. The date on which my initial fixed interest rate changes to an adjustable interest rate, and each date on which my adjustable interest rate could change, is called a "Change Date."

(B) The Index

Beginning with the first Change Date, my adjustable interest rate will be based on an Index. The "Index" is the average of interbank offered rates for one-year U.S. dollar-denominated deposits in the London market ("LIBOR"), as published in The Wall Street Journal. The most recent Index figure available as of the date 45 days before each Change Date is called the "Current Index."

If the Index is no longer available, the Note Holder will choose a new index that is based upon comparable information. The Note Holder will give me notice of this choice.

(C) Calculation of Changes

Before each Change Date, the Note Holder will calculate my new interest rate by adding TWO AND 250/1000 percentage points (2.250 %) to the Current Index. The Note Holder will then round the result of this addition to the nearest one-eighth of one percentage point (0.125%). Subject to the limits stated in Section 4(D) below, this rounded amount will be my new interest rate until the next Change Date.

The Note Holder will then determine the amount of the monthly payment that would be sufficient to repay the unpaid principal that I am expected to owe at the Change Date in full on the Maturity Date at my new interest rate in substantially equal payments. The result of this calculation will be the new amount of my monthly payment.

(D) Limits on Interest Rate Changes

The interest rate I am required to pay at the first Change Date will not be greater than 6.000 % or less than 2.250 %. Thereafter, my adjustable interest rate will never be increased or decreased on any single Change Date by more than two percentage points from the rate of interest I have been paying for the preceding 12 months. My interest rate will never be greater than 9.000 %.

(E) Effective Date of Changes

My new interest rate will become effective on each Change Date. I will pay the amount of my new monthly payment beginning on the first monthly payment date after the Change Date until the amount of my monthly payment changes again.

(F) Notice of Changes

The Note Holder will deliver or mail to me a notice of any changes in my initial fixed interest rate to an adjustable interest rate and of any changes in my adjustable interest rate before the effective date of any change. The notice will include the amount of my monthly payment, any information required by law to be given to me and also the title and telephone number of a person who will answer any question I may have regarding the notice.

TRANSFER OF THE PROPERTY OR A BENEFICIAL INTEREST IN BORROWER

Until Borrower's initial fixed interest rate changes to an adjustable interest rate under the terms stated in Section A above, Uniform Covenant 18 of the Security Instrument shall read as follows:

Transfer of the Property or a Beneficial Interest in Borrower. As used in this Section 18, "Interest in the Property" means any legal or beneficial interest in the Property, including, but not limited to, those beneficial interests transferred in a bond for deed, contract for deed, installment sales contract or escrow agreement, the intent of which is the transfer of title by Borrower at a future date to a purchaser.

If all or any part of the Property or any Interest in the Property is sold or transferred (or if Borrower is not a natural person and a beneficial interest in Borrower is sold or transferred) without Lender's prior written consent, Lender may require immediate payment in full of all sums secured by this Security Instrument. However, this option shall not be exercised by Lender if such exercise is prohibited by Applicable Law.

DocMagic @Forms www.docmagic.com

If Lender exercises this option, Lender shall give Borrower notice of acceleration. The notice shall provide a period of not less than 30 days from the date the notice is given in accordance with Section 15 within which Borrower must pay all sums secured by this Security Instrument. If Borrower fails to pay these sums prior to the expiration of this period, Lender may invoke any remedies permitted by this Security Instrument without further notice or demand on Borrower.

2. When Borrower's initial fixed interest rate changes to an adjustable interest rate under the terms stated in Section A above, Uniform Covenant 18 of the Security Instrument described in Section BI above shall then cease to be in effect, and the provisions of Uniform Covenant 18 of the Security Instrument shall be amended to read as follows:

Transfer of the Property or a Beneficial Interest in Borrower. As used in this Section 18, "Interest in the Property" means any legal or beneficial interest in the Property, including, but not limited to, those beneficial interests transferred in a bond for deed, contract for deed, installment sales contract or escrow agreement, the intent of which is the transfer of title by Borrower at a future date to a purchaser.

If all or any part of the Property or any Interest in the Property is sold or transferred (or if Borrower is not a natural person and a beneficial interest in Borrower is sold or transferred) without Lender's prior written consent, Lender may require immediate payment in full of all sums secured by this Security Instrument. However, this option shall not be exercised by Lender if such exercise is prohibited by Applicable Law. Lender also shall not exercise this option if: (a) Borrower causes to be submitted to Lender information required by Lender to evaluate the intended transferee as if a new loan were being made to the transferee; and (b) Lender reasonably determines that Lender's security will not be impaired by the loan assumption and that the risk of a breach of any covenant or agreement in this Security Instrument is acceptable to Lender.

To the extent permitted by Applicable Law, Lender may charge a reasonable fee as a condition to Lender's consent to the loan assumption. Lender also may require the transferee to sign an assumption agreement that is acceptable to Lender and that obligates the transferee to keep all the promises and agreements made in the Note and in this Security Instrument. Borrower will continue to be obligated under the Note and this Security Instrument unless Lender releases Borrower in writing.

If Lender exercises the option to require immediate payment in full, Lender shall give Borrower notice of acceleration. The notice shall provide a period of not less than 30 days from the date the notice is given in accordance with Section 15 within which Borrower must pay all sums secured by this Security Instrument. If Borrower fails to pay these sums prior to the expiration of this period, Lender may invoke any remedies permitted by this Security Instrument without further notice or demand on Borrower.
